

EU VALUES THROUGH SPORTS

On Friday the 6th our schools Senior and under 14's boys football teams played Foleys school at Happy Valley sports grounds under the auspices of the Limassol Rotary club schools championship.

Led by an outstanding Andrew Gardener (class 3) in defence, the under 14's team put in a fine performance beating their equivalent opposition 3-2 in a thrilling game where Stefanos Kyriakides (class 2) scored three very well taken goals.

Our senior team enjoyed mixed emotions against tough opposition. Two goals from our Student President Angelo Themistokli (class 7) and a 25 yard free kick by Alex Theologou (class 6) helped us overturn a 0-2 deficit to lead 3-2. However we were

denied victory as Foleys managed to equalize in the last minutes of the game.

Congratulations are in order to all the team members and their coaches Mr. Aristou and Kerry Georgiades (class 6).

A special thank you for all our fans that traveled in numbers to support us at Happy Valley, and an even bigger thank you must go out to the European Parliament Project office for supporting us in purchasing the teams equipment and uniforms.

The European Parliament Project which our school is participating in this year aims to raise awareness of the EU through education, we hope that with this generous contribution we students can also help raise awareness of pan European values such as cooperation and fair play through sports!
